

introducing India's First NON ELECTRIC TOILET

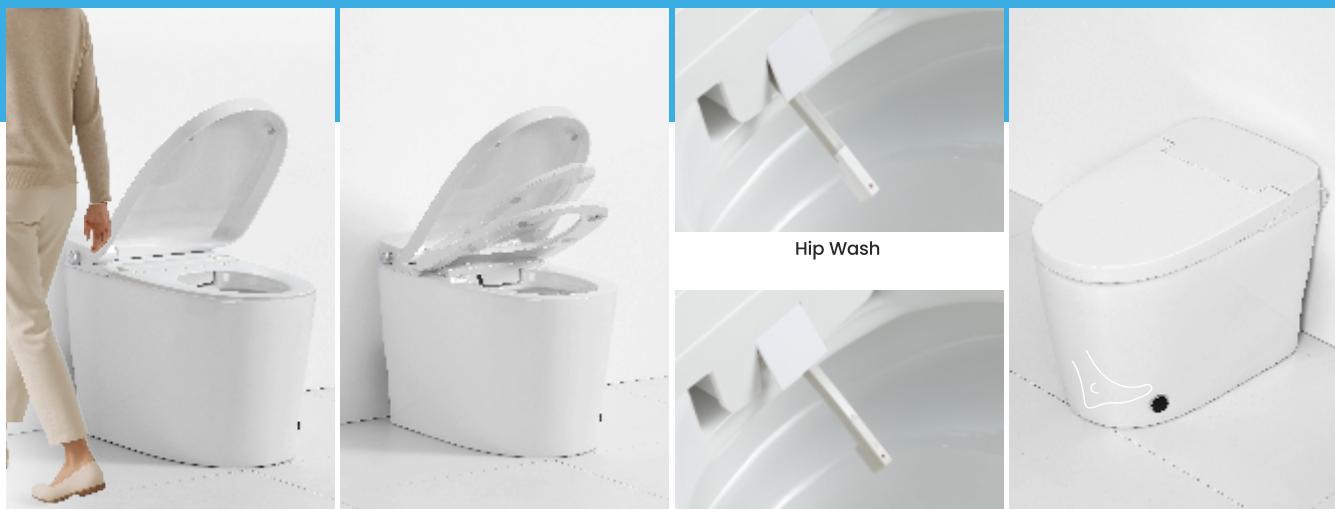

PURE ONE

TankLess Bidet Toilet

Hygiene
“YOUR WAY FOR
HEALTHIER LIFE”

Manual Bidet Tankless Toilet

Cleanll PureOne has functions such as: Hip wash, Feminine wash, easy clean ceramic, manual flushing. Meeting the daily needs of users hygiene your way for healthier life.

Offseat Auto Flushing

PureOne introduces the most useful function, the moment user is offseat, it automatically flushes the toilet in 3 seconds. In case of low battery foot touch manual flushing is also provided in the toilet.

Soft close seat cover/ring

PureOne is equipped with a silent seat cover/ring to safeguard every quiet moment. A Tankless Toilet can achieve soft closing of the seat cover/seat Ring almost no noise.

Hip Wash

Feminine Wash

Foot touch manual flushing

When men urinates or low battery, manual flushing is to be used.

Non Electric Washing Platform

Using the water pressure of tap water to push the nozzle spray water.

Cleanll PureOne can achieve Hip washing and Feminine washing functions without any electricity. It provides a healthy, comfortable and hygienic your way for healthier life.

Knob Operation (60° self-cleaning, 90° function)

Cleanll PureOne tankless bidet toilet is equipped with a one button drive function, achieving dual mode functions for feminine wash and hip wash.

Rotate the knob forward for hip wash and rotate the knob backward for feminine wash.
