DESIGNED FOR INDIA

Experience the future of  
smart sanitary solutions engineered  
with precision, crafted for excellence.

CLEANL BRINGS INDIA ITS FIRST WAVE  
OF SMART SANITARY WARE

FUTURE  
READY TECH,  
SUSTAINABLE  
THINKING,  
& PROUDLY  
MADE  
IN INDIA

## FOUNDER'S LEGACY

Cleanll's leadership carries a legacy of firsts from revolutionizing India's HVAC landscape with advanced split AC units, cross-flow fans, and micro-channel heat exchanger, to creating the nation's first fully Made-in-India smart toilet.

Their pioneering vision fuels Cleanll's relentless drive for innovation and unmatched market insight, inspiring a culture of excellence where engineering precision, sustainable thinking, and customer-centric design come together.

This forward-looking legacy not only shapes the brand's direction but also sets new benchmarks for India's smart sanitary future.

## ACHIEVEMENTS TIMELINE

1999

First to manufacture split AC indoor units and cross flow fans in India.

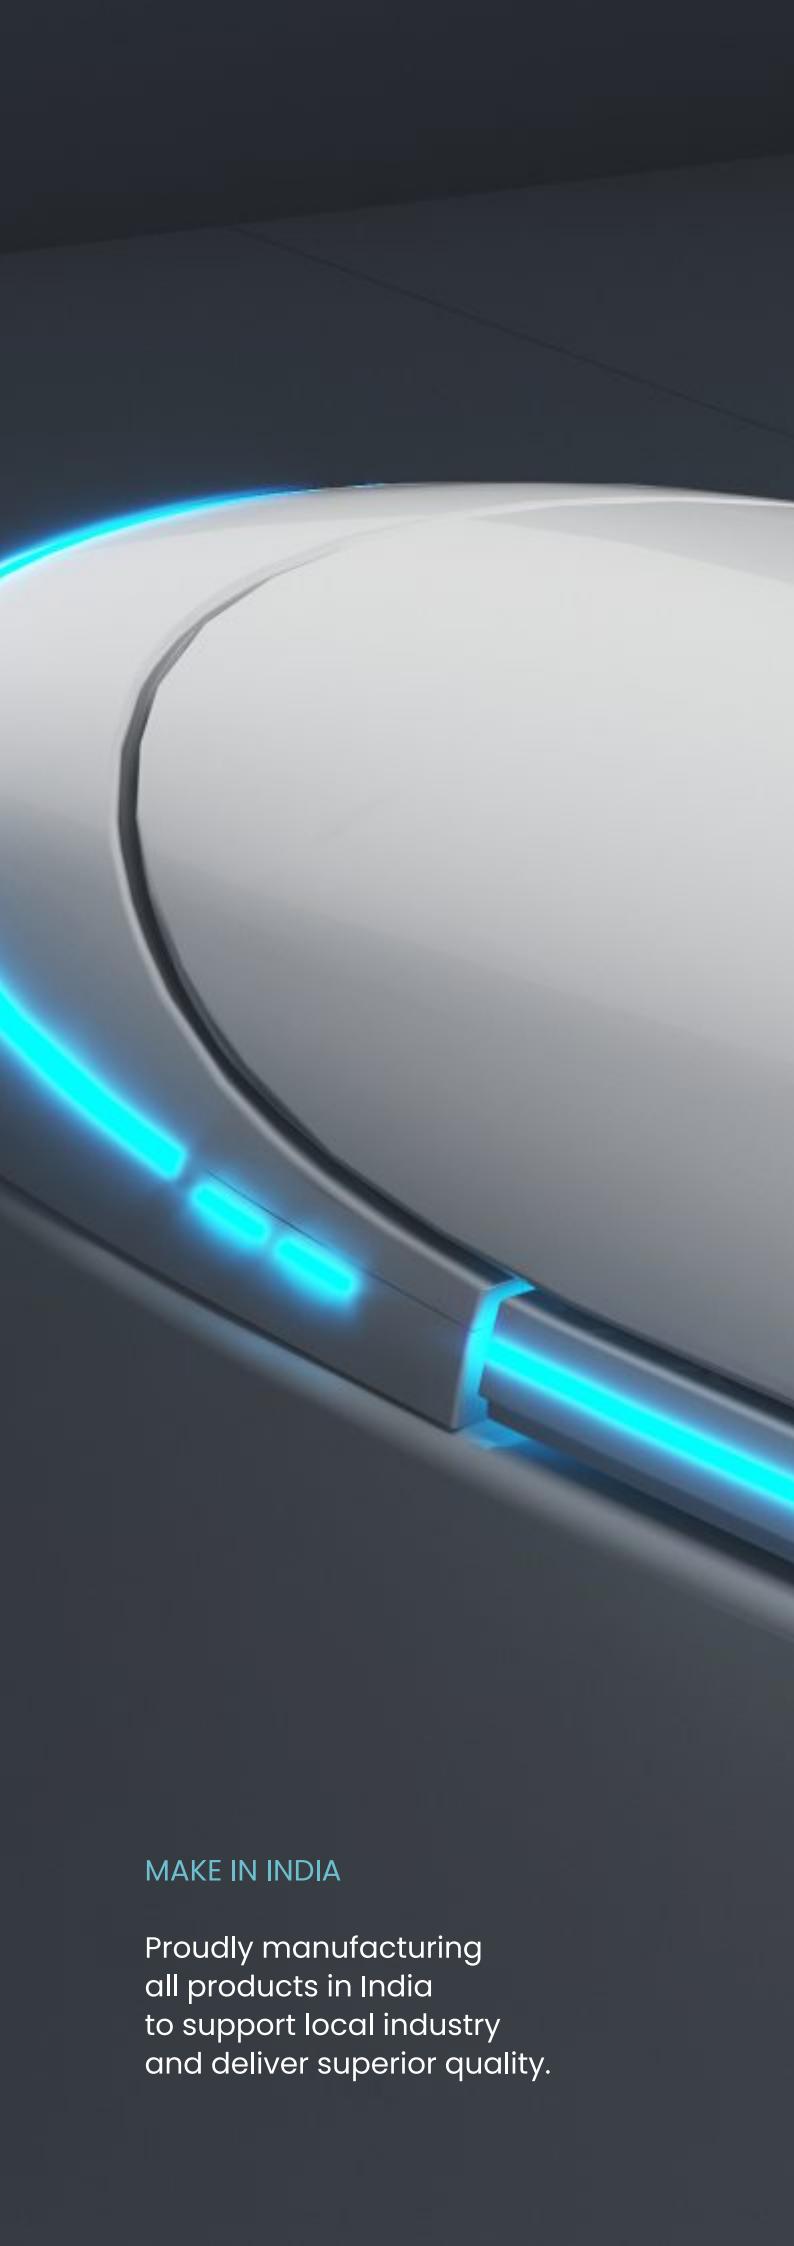

Early 2000s

Introduced micro channel heat exchangers and header pipes.

Present

First to launch and produce smart toilets in India, integrating intelligent flushing, bidet functions & hygienic automation.

## VISION RISE FORWARD

To empower India as a global benchmark for smart, sustainable sanitary solutions by continually innovating, manufacturing locally, and integrating intelligent features that elevate hygiene and comfort for every household, builder, architect, and interior designer.

## MISSION OUR PLEDGE

Cleanll's mission is to deliver technologically advanced, reliable, and affordable smart sanitary products that enrich user experience, promote health and hygiene, and contribute to sustainable living. The company is committed to delivering quality with warranty and guarantee, providing exceptional value for end-users and professionals alike.

### MAKE IN INDIA

Proudly manufacturing all products in India to support local industry and deliver superior quality.

## OUR CORE VALUES

### First Mover Innovation

Consistently pioneering new technologies and user-focused features for the Indian market.

### Sustainability

Integrating eco-friendly practices in every step from design to production.

### Quality and Assurance

Every Cleanll product comes with robust quality checks, warranty, and guarantee.

### Smart Pricing

Offering premier technology while ensuring affordability for customers and partners.

### User-Centric Design

Crafted with real user needs in mind ensuring comfort, convenience, and intuitive functionality in every product.

### Long-Term Performance

Engineering products that deliver consistent, dependable performance for years, backed by trustworthy components & rigorous testing.

# AQUASKY

SO ADVANCED  
EVEN **Aliens** WANT ONE

Because brilliance doesn't stop  
at Earth's boundary.

Step into the future of  
bathroom technology.  
With sensor-driven automation,  
precision flushing, and ergonomic  
design. Our intelligent smart toilet  
delivers a seamless fusion of  
**innovation and comfort.**

### Cleaning

#### range is adjustable

Increase the cleaning space, no need to clean repeatedly, with softness and strength, temperature, intensity, different gears regulation.

### Built-in water tank

Built-in sunken water tank, equipped with efficient accessories, washes more hygienically, water pressure for stable water flow, strong instant flushing.

### Built-in perfume

The hole releases the aromatic fragrance, alleviates the residual odor of many people in the toilet successively and avoids embarrassment.

### Built-in foot click flushing

By touching the foot button gently, it enables flushing manually of the intelligent smart toilet.

### Sensor Based Automatic opening

Automatic opening of the seat cover, when human body reaches closer to the intelligent smart toilet, No need to bend over and get your hands dirty.

### Mobile air drying

The range of drying is larger, the air outlet is closer to the hip, with accurate flap, hot air remains concentrated.

### Hygienic Bubble Shield

A soft cushion of bubbles forms inside the toilet bowl, keeping the surface lubricated and clean. This advanced bubble layer reduces splashes, prevents stains, and helps eliminate odor at the source.

### Ambient light

Soft water atmosphere lamp, suitable for various ambience.

### UV Sterilization

After using the toilet, the toilet automatically close and open the sterilization function.

INTRODUCING  
INDIA'S FIRST NON ELECTRIC TOILET

## PURE ONE

AutoFlush TankLess Bidet Toilet

### WHERE HYGIENE MEETS HEIGHTENED LIVING

Engineered to fit seamlessly on any toilet seat, our bidet transforms daily cleansing into a healthier, fresher, and more confident experience, every single day.

## Manual Bidet Tankless Toilet

Cleanll PureOne has functions such as: Hip wash, Feminine wash, easy clean ceramic, Offseat auto & manual flushing, Meeting the daily needs of users hygiene your way for healthier life.

### Offset Auto Flushing

PureOne introduces the most useful function, the moment user is offseat, it Automatically flushes the toilet in 3 seconds. In case of low battery foot touch manual flushing is also provided in the toilet.

### Soft close seat cover/ring

PureOne is equipped with a silent seat cover/ring to safeguard every quiet moment. A Tankless Toilet can achieve soft closing of the seat cover/seat Ring almost no noise.

### Foot touch manual flushing

When men urinates or low battery, manual flushing is to be used.

## Non Electric Washing Platform

Using the water pressure of tap water to push the nozzle spray water.

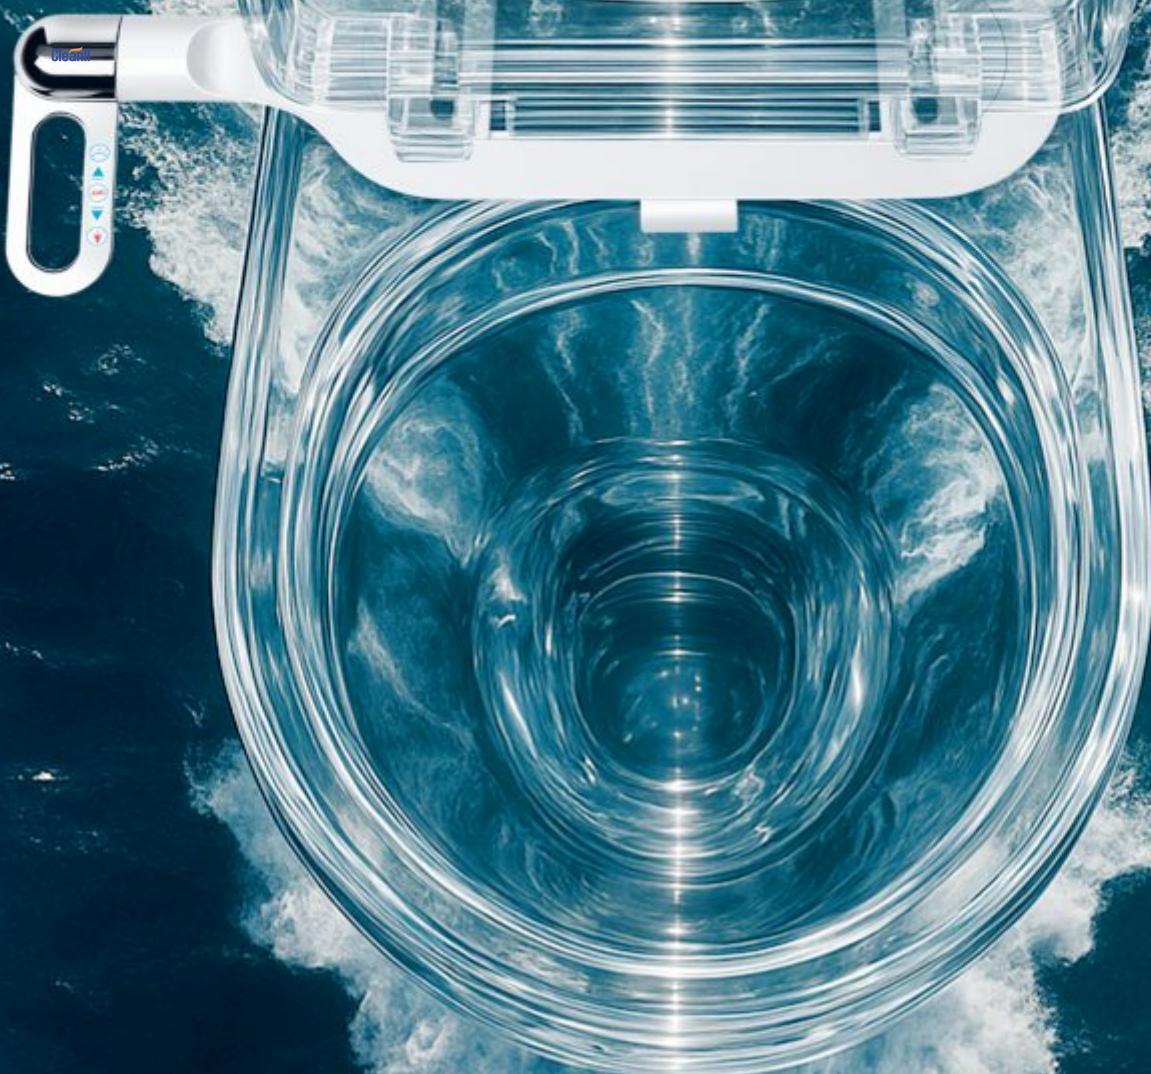

Cleanll PureOne can achieve Hip washing and Feminine washing functions without any electricity. It provides a healthy, comfortable and hygienic your way for healthier life.

## Knob Operation (60° self-cleaning, 90° function)

Cleanll PureOne autoflush tankless bidet toilet is equipped with a one button drive function, achieving dual mode functions for feminine wash and hip wash.

Rotate the knob forward for hip wash and rotate the knob backward for feminine wash.

Introducing  
Non-electric Toilet Bidet Attachment  
With Dual Nozzle For Cleaning.

HEALTH RISK COMPARISON		
Side-by-Side Health Risk Table Comparing Bidet VS Jet Spray/Health Faucet		
Health Concern	Bidet	Jet Spray / Health Faucet
Urinary Tract Infections (UTIs)	<b>Lower risk</b> Hands-free, better cleansing, less bacterial transfer.	<b>Higher risk:</b> Hand contact with nozzle, inconsistent cleaning, possible contamination from nozzle touching surfaces.
Hemorrhoids & Anal Fissures	<b>Gentle</b> Adjustable soft spray and warm water reduce irritation and promote healing.	<b>Can worsen symptoms</b> High-pressure, cold water jet may cause pain and micro-injury.
Postpartum Recovery	<b>Soothing</b> Soft water spray helps healing and comfort, no need for wiping.	<b>Uncomfortable</b> Strong jet and awkward positioning can be painful.
Skin Damage / Irritation	<b>Minimal</b> No friction from repeated wiping; soft spray is skin-friendly.	<b>Possible</b> Strong jet and follow-up wiping may cause chafing or dryness.
Cross-contamination Risk	<b>Low</b> Fixed nozzles, self-cleaning feature.	<b>Higher</b> Handheld nozzle can touch bowl or skin, transferring germs.
Ease for People with Mobility Issues	<b>High</b> No twisting or bending required.	<b>Lower</b> Requires aiming and holding, which can be hard for elderly or disabled users.

## ADVANTAGES OF BIDET

**Comfort**  
Gentle, controlled water stream; adjustable pressure; hands-free.

**Water Efficiency**  
Often uses less water because the spray is targeted and controlled.

**Hygiene**  
Minimal hand contact reduces contamination risk; often includes self-cleaning nozzles.

**Consistency**  
Water flow and spray angle are fixed and consistent every time.

**CONCEALED CISTERN**  
*Bathroom space optimization*

Hidden Brilliance.  
Visible Elegance

# SMART ENGINEERING. SEAMLESS DESIGN. EVERYDAY COMFORT

## ADVANTAGES OF A CONCEALED CISTERN

### Space-Saving Design

A concealed cistern frees up visual and physical space, making even compact bathrooms look larger and more elegant.

### Clean & Hygienic

With fewer exposed parts and smooth surfaces, cleaning becomes effortless. Less clutter, more hygiene.

### Built for Durability

Engineered with robust, long-lasting materials to ensure leak-free performance and years of reliability.

### Universal Compatibility

Perfectly fits most wall-hung toilet systems, making installation simple and versatile.

### Ultra-Quiet Performance

Hidden inside the wall, the cistern reduces flushing noise offering a calm, premium bathroom experience.

### Invisible, Yet Elegant

Only the flush plate is visible. Giving your bathroom a minimalist, modern and luxurious appeal.

### Dual Flush Efficiency

Smart water-saving technology designed to reduce consumption without compromising power.

### Easy Maintenance

Front-access servicing via the flush plate ensures quick, hassle-free maintenance without opening walls.
